Hello — I'm Nabeel.

Jerusalem, Israel · Contact

Motivated and hands-on **QA Tester** with solid knowledge in both **manual** and **automated** testing across web and API platforms. Proficient with `Selenium`, `PyTest`, `JIRA`, `TestRail`, `Postman`, and working knowledge of `SQL` for backend verification. I thrive in Agile teams, love clear test design, and keep refining processes to get reliable, release-ready software.

Manual & Automation   Web & API Testing   Bug Reporting   Agile / Scrum   CI basics

PROJECTS (QA-FOCUSED)

Search Feature – Full-Text Validation

Automation · Python, Selenium, PyTest

- Validates relevance, highlighting, and pagination (TC_SEARCH_001—_010).
- Data-driven with CSV; includes negative tests and debounce checks.

Code Report Test Cases

Registration Form — E2E Validation

Manual + Automation · Selenium, PyTest

- Field rules, client/server validation, OTP flow, and accessibility checks.
- Screenshots on failure; fixtures for reusable setup/teardown.

Code Bug Report STD / STR

"Book Now" Button — Critical Path

Exploratory + Functional · TestRail, JIRA

- Mapped requirement IDs to TC coverage (REQ_QAO_020 ↔ TC_BOOK_001-008).
- Found edge cases with slow network & flaky loaders; raised 3 critical bugs.

Cases Bugs Demo

Drag & Drop / File Upload / Headless

Automation · Selenium, Actions, Headless Chrome

- Robust selectors (IDs, CSS, XPath) + retries for dynamic DOMs.
- Headless screenshot tests for CI and artifact publishing.

Code Artifacts

EXPERIENCE HIGHLIGHTS

QA Student / Project Work — ICS Academy (2024–2025): built test plans (STP), test designs (STD), and reports (STR) for multiple systems including ERP and education portals. Collaborated via JIRA and TestRail; practiced bug life-cycle, prioritization, and traceability.

Comfortable with API tests in Postman, simple SQL queries, and basic Git workflows.

SKILLS

Manual Testing   Selenium WebDriver   PyTest   Postman (API)   JIRA   TestRail   SQL (Basics)

Git   Agile / Scrum

EDUCATION

ICS Academy — Manual & Automated Testing

2024–2025 · Course: 104ג בודק תוכנה ירושלים

Hands-on labs in Selenium + PyTest, JIRA workflows, API testing with Postman, and SQL basics.

LANGUAGES

Arabic (Lebanese) — Native
English — Fluent
Hebrew — Good
